Together, we can support an Alexander's Nurse like Becks...

Becks returned to Alexander Devine as a newly qualified nurse after completing her placement at our children's hospice. During her time, she was inspired by the way every aspect of a child's life was considered, not just their clinical needs, but also their emotional, social, spiritual, and practical support. Becks says:

“It wasn't just the care team; it was the entire hospice coming together to ensure families felt supported, respected and cared for.”

By joining the Business Club, you and other local organisations can come together to help fund an incredible nurse like Becks.

It costs £35,000 to employ a newly qualified nurse. Please help us fund more nurses like Becks to ensure we can offer the babies, children and young people, and their families, the specialist care whenever and wherever they need it.

“The combination of play, comfort, emotional wellbeing and clinical excellence confirmed this was the type of nursing I wanted to do.”

“Pippa was about 5 years old when she was referred to Alexander Devine. And it's something I previously avoided as I thought that a referral to a hospice meant end of life care. Little did I realise that a referral here would allow our family to breathe again, to live again, and to begin to function again as a family.”

Danielle, Pippa's Mum
